

嘉宾简介

- Born 1961 in Kamchatka
- Graduated from Kyiv National University (USSR/Ukraine) in 1983, received Ph.D. from the same institution in 1987, had postdocs in the University of Oslo (Norway) and Queen's University (Canada), recipient of NSERC International Fellowship.

In 1995 he obtained the Habilitation Degree from Kyiv National University and in 1998 the title of "livre docente" from the University of Sao Paulo (Brazil).

- He held positions of Assistant and Associate professor at Kyiv National University, Senior Lecturer in the University of Sydney (Australia), Adjunct Visiting Associate at Queen's University, Associate and Full Professor in the University of Sao Paulo. He held visiting positions at Utah State University in Logan; Carleton University and University of Ottawa; University of Wisconsin Madison; University of California Berkeley. Currently a Chair Professor and Deputy Director of the Shenzhen International Center for Mathematics, SUSTech University.
- In 2015 was elected to the Academy of Sciences of Brazil.
- Recipient of research visiting awards from Max Planck Institute, University Sorbonne Paris Nord, University of Paris and

University Haute-Alsace (France).

- Invited Speaker at the ICM-2018
- Invited speaker at the ICCM-2023
- Plenary speaker at Brazil-Portugal Meeting in Mathematics in 2022
- CRM Distinguished Lecture at the University of Ottawa, 2019
- Honorable Mention (second prize) for the Best Ph.D. Thesis supervision in Brazil in 2022.
- Editor in Chief of Sao Paulo Mathematical Journal, 2014-2018; Editorial Board member of 6 international journals, including J.of Algebra and its Applications.
- Coordinator of several International projects between Brazil, France, Argentina and Uruguay.

Principal research interests include Representation Theory and Lie theory, their applications in Mathematical Physics and other areas. Has 2 monographs and over 160 papers.
